Hello -

I hope all is well and that you're enjoying your day! The 2017 Clean Air Action Plan (CAAP) update has been released and this final version is scheduled to be considered for approval in a joint public meeting of the Port of Los Angeles and the Port of Long Beach harbor commissioners on Thursday, November 2nd at 8:30am in the Crowne Plaza Los Angeles Harbor Hotel located at 601 S. Palos Verdes Street

<https://maps.google.com/?q=601+S.+Palos+Verdes+Street&entry=gmail&source=g>

in San Pedro. Below you will find the Press Release which outlines the details and also provides the links to where you can find the CAAP documents. Please feel free to pass this information onto your stakeholders.

Sincerely,

Augie Bezmalinovich

Community Affairs Advocate

Port of Los Angeles

*2017 CLEAN AIR ACTION PLAN UPDATE RELEASED *

San Pedro Bay **P**orts **T**ake **S**teps **T**oward **C**lean**er Future

Oct. 23, 2017

The ports of Los Angeles and Long Beach today released the final 2017 San Pedro Bay Ports Clean Air Action Plan (CAAP) Update, which sets America's largest seaports on a path toward zero emissions operations.

The draft 2017 CAAP Update was released in July. This final version of the document incorporates comments and changes and is scheduled to be considered for approval in a joint public meeting of the two ports' harbor commissions at 8:30 a.m. Thursday, Nov. 2, at the Crowne Plaza Los Angeles Harbor Hotel, 601 S. Palos Verdes St., San Pedro, 90731
<https://maps.google.com/?q=601+S.+Palos+Verdes+St.,+San+Pedro,+90731&entry=gmail&source=g>.
The meeting will be broadcast live online at polb.com/webcast and at portoflosangeles.org.

The 2017 CAAP Update document, fact sheet and responses to comments are available on both port websites and cleanairactionplan.org
<http://www.cleanairactionplan.org/news/2017-clean-air-action-plan-update-released/>

The original CAAP and the 2010 update have proven highly effective. Staff from both ports developed the 2017 CAAP Update over the last two years to craft strategies to further reduce air pollution and associated health risks from port-related sources. The ports held more than 70 meetings with industry, regulatory agency, and community stakeholders, hosted three public workshops, and allotted 150 days of formal public comment periods.

The Port of Los Angeles and Port of Long Beach are the two largest ports in the nation, first and second respectively, and combined are the ninth-largest port complex in the world. The two ports handle approximately 40 percent of the nation's total containerized import traffic and 25 percent of its total exports. Trade that flows through the San Pedro Bay ports complex generates more than 3 million jobs nationwide.
